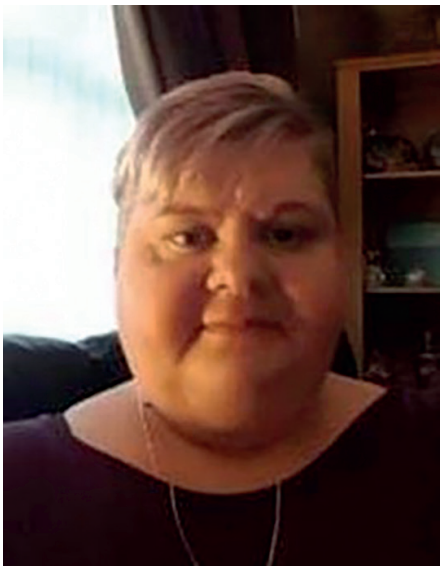
Tash Wightman - Leaving Care Suffolk

Suffolk County Council



Natasha is a personal assistant who, despite her own health problems, is always putting young people first. If she knows a young person is struggling, she will do everything in her power to support that person sometimes even out of hours!

She set up a group called 'Our Voice' which creates a mechanism where young people can come and have their say about the system and try and make changes. Tash has made an incredible impact on her clients, one of which nominated her for the Supporting Young People Award, saying: "I am thankful coz I wouldn't be here today if it wasn't for having Tash I could say so, so, much more about Tash but I would be here for hours".
